

Track n Trail Winter Series Round 3

Weatherby Fort 13th February 2011

WHO'S UP FOR MUD PIES?

Report for Track n Trail by Jackie Cogdell

The foul weather that was forecast all week held off until Saturday night where it continued to rain on and off throughout the race, there was still a strong turn out and all riders were positive before the start flag. On the sighting lap some riders found it more interesting than they had anticipated and many of the novice class riders decided that they would take an early bath.

The weather and the track failed to dampen 99 Phil Studley's efforts and he took an admirable first place in the Championship class, he was chased hard throughout the race by David Biles.

Expert class winner was Dan Bray, closely followed by Darren Hounsell.

Phil Studley focussed and flying

The Expert over 40 class was won by Charlie Richards, chased home by Stuart Keedwell. Clubman 2stroke class was taken by Daniel Richards, Barry Mitchell 2nd and Ian Barnett coming home third. In Clubman 4stroke Giles Richards was 1st and Jacque Stevens 2nd. Over 50's was won by Steve Taylor, with Mike Hill finishing 2nd.

Not everyone found the going so straightforward. Some even chose to practice their crowd-pleasing wheelies on the Way.

If the youth race was to be a film it would be “True Grit” because that’s what they all demonstrated today, the adults had all but destroyed the track and the rain was falling almost constantly yet the young riders were all determined to enjoy themselves, and maybe they did!

The climbs were so much fun they were queuing up to tackle them.

First place was taken by Matt Baber followed closely by Harvey Dark taking second place in the Youth 125 group.

The popular Big Wheel 85cc class was won by Dylan Baynton, 2nd place was Mitchell Miller. Jake Meaker took first in the small wheel 85cc class, followed home by Joe Newman. The ever happy 65cc class was won by Matthew Martin, 2nd place was Brett Rowland and 3rd Joe Peppard.

Finally.

Thanks to all those who helped throughout the, wet, muddy and cold day.
